

# MARKET REPORT

February 6th, 2026

Overall supply conditions are tight across multiple regions as cold weather, seasonality, and logistics delays reduce volumes and elevate pricing on several key commodities.

## ASPARAGUS

Mexican and Peruvian supplies declining from cold weather and seasonality, keeping markets active and availability tight.

## GREEN BEANS

Florida freezes slowing production, raising prices and creating ongoing supply concerns across markets.

## BLUEBERRIES

Peruvian production remains low seasonally; Chile steady quality but limited supply and rising prices expected.

## BASIL

Colombian production down from rain and inspections, causing quality issues and reduced supply availability.

## SNOW PEAS

Guatemalan supply strong, but sugar snaps remain affected by cold weather conditions.

## CARROTS

Guatemalan baby orange and rainbow supplies remain low, while bi-color production shows gradual improvement.
