

# MARKET REPORT

March 6th, 2026

Produce markets remain tight overall as lingering cold weather, frost damage, and seasonal transitions continue limiting supply across several key commodities.

## ASPARAGUS

Mexican production improving with warmer weather; Peruvian harvest expected soon as markets remain steady.

## GREEN BEANS

Florida freeze damage has nearly eliminated production, keeping markets extremely elevated and supply severely limited.

## BLUEBERRIES

Peruvian and Chilean production remains low seasonally; Florida crop delayed after February freezes and cold weather.

## BASIL

Mexican cold weather and Colombian rains continue reducing supply and quality across imported basil markets.

## SNOW PEAS

Guatemalan snow pea supply strong while sugar snap production continues gradually improving.

## CARROTS

Guatemalan baby orange, rainbow, and bi-color supplies remain very limited, with shortages expected several weeks.
