

MARKET REPORT

July 10th, 2026

Market activity continues to be influenced by weather, regional transitions, and supply conditions across several categories.

ASPARAGUS

Demand continuing to exceed supply. Most production is currently coming from Northern Peru

GREEN BEANS

Green bean supply is limited as heat in the northern states has affected yields. Markets are active.

BLUEBERRIES

Michigan and British Columbia are currently harvesting blueberries. Production across all growing regions is expected to continue improving.

Snow Peas

Supply of Guatemalan snow peas and sugar snaps is increasing. Expect better supply each week.

MANGOES

Mexican production continues, with pricing up. Supply is down 70% versus previous years.

CARROTS

Production of Guatemalan baby orange, baby rainbow, and baby bi-color carrots is good, with steady volume and good quality.
