

03/12/24:

**Asparagus:** Asparagus production is excellent from all regions in Mexico. Markets continue to be less active with abundant supply

**Guatemala outlook:** Temperatures continue to be cold, slowing production on **French beans, blackberries, snow peas and sugar snaps.**

**Baby Squash:** Weather related issues have delayed production, product will remain very limited for the next few weeks.

**Berries: Blackberries** - Production has improved this week, but still below average. **Blueberries** - Peru and Chile are wrapping up production due to seasonality. Florida started with low production.

**Raspberries** - Mexican production is slow due to weather. Guatemalan production is low.

**Carrots:** Steady supply of **Baby Orange** out of Mexico. **Baby Rainbow** and **Baby Bi-Color** supply continues to improve.

**Chilies:** Limited supply on all varieties due to weather. Prices have increased significantly.

**Cucumbers:** Fair supply of **Euro Cucumbers. Persian Cucumbers** supply will remain fair until weather improves.

**French Beans:** Production has improved, but not at 100% just yet.

**Green Beans:** Production and quality has improved with warmer weather in Florida. Markets have reacted to the improved production.

**Herbs:** Supply continues to be inconsistent on most varieties due to weather. Basil supply and quality is fair at best due to weather related issues.

**Mango:** Peruvian production continues to be very limited.

03/12/24:

**Papaya:** Production has improved from Brazil.

**Potatoes:** Good production on all varieties.

**Radicchio:** Supply and market are steady.

**Root Veggie:** Baby Bunch Carrots and Baby Bunch Beets (all varieties) supply has improved out of Mexico.

**Lettuce (Specialty Varieties):** Steady supply, good quality.

**Peas:** Snow peas steady supplies out of MX, **Sugar snaps** supply will be limited going into next week.

Tomatoes : Baby Medley and Mixed Heirloom flats market is very active with high demand. Expect supply to improve in the next two weeks.

**Other:** **Baby Arugula** is back to normal. **Chinese Eggplant** production has improved. Colombian **limes**, Mexican **lemons**, Ecuadorian **dragon fruit**, Mexican **brussel sprouts** and Costa Rican **pineapples** continue to be available in Miami. Supply continue to be very plentiful on **Blood Oranges**, **Meyer Lemons**, **Cara Cara oranges**, **mandarins**, **tangos** and **murcotts**. Several varieties of **stone fruit** are available from Chile, including **lemon plums**. **Kiwi berries** and **Donut peaches** are readily available from New Zealand. Steady supply of **kumquats**, **Bergamots** and **mandarinquats**. **Strawberries** are becoming more available as production improves.
